

New Program Announcement: Disease Management Programs (Asthma and Diabetes)

Alameda Alliance for Health (Alliance) values our dedicated provider partner community. We have an announcement we want to share with you.

The Alliance is honored to provide asthma and diabetes disease management programs to our members as a part of our Medi-Cal and Group Care benefits. Alliance members with a diagnosis of asthma or diabetes may be eligible for one of the following services:

- **Asthma Remediation** – Alliance Medi-Cal members (ages 0-18) with poorly controlled asthma, may qualify for asthma education and home modifications to improve asthma management. Members eligible for Asthma Remediation will receive a letter from the Alliance and an outreach call from the Alameda County Asthma Start program.
- **Happy Lungs** – Members 18 years or younger with lower-risk asthma will receive an educational letter and the opportunity to engage with the Alliance for additional resources.
- **Living Your Best Life with Asthma** – Members 19 years of age or older with asthma will receive an educational letter to engage with the Alliance for additional resources.
- **Living Your Best Life with Diabetes** – Members 19 years of age or older with diabetes will receive an educational letter and the opportunity to engage with the Alliance for additional resources. Members identified with higher-risk diabetes will also receive an outreach call.

The Alliance disease management programs help members achieve optimum health by offering:

- An assessment of the member's chronic disease management needs
- Support for members to adhere to physician treatment plans
- Health education resource materials
- Health coaching sessions tailored to the member's needs
- Care coordination to help support our members in getting the care they need

To refer your patients in need of asthma or diabetes disease management, please fax back the attached referral form or call us:

Alameda Alliance for Health
